LIBRARIANS
SECTION**

Medical Library Association

Quality Information for Improved Health

For almost a quarter of a century, the Cancer Librarians Section has provided leadership to information professionals specializing in clinical and patient-level cancer librarianship. Founded in 1981 by a group of 40 dedicated librarians, our section has currently grown to over 150 oncology specialists, worldwide, who continue to seek:

- To provide a forum for cooperation and communications among librarians having a special interest in cancer-related libraries and information services
- To promote the continued development of cancer libraries, information resources and services
- To meet, network with and engage with leaders nationwide who share our interest and commitment to improving the public's health through improved access to cancer information

We invite you to join us to share the many benefits of membership which include:

- **Cancer Librarians Website**
<http://www.selu.com/cancerlib/index.html>
Connect to tools and publications developed to inform, enlighten and improve your oncology information knowledge-base
- **Cancerlib Discussion List**
Meet the leaders in cancer librarianship as you discuss news, trends, and ideas and glean the advice of seasoned professionals and recent learners alike
- **Cancer Librarians Section Newsletter**
Read about recent developments in our section and in the global cancer community
- **Core Cancer Library Collection Development Guide**
Learn the essential titles for professional and patient cancer libraries
- **Patient Libraries Listing**
List your library and market your services to the global cancer library community! Locate other patient cancer information specialists to connect with experts in the field instantly!

Become an active, engaged and valued contributor to our profession and join us as we shape 21st century cancer information together!

For membership information or to join our section, please go to: <http://www.mlanet.org/joinmla/index.html>
