

CORE CANCER LIBRARY

Cancer Librarians Section / MLA

2001 update

The Cancer Librarians Section developed a core list of cancer materials as a tool for selection and collection development. The list represents titles considered basic and useful for the small to medium library. The list does not claim to represent all titles that might be needed by an individual library.

BH or BHN at the end of the citation refer to the *Brandon-Hill Selected List of Books and Journals for the Small Medical Library* and *Brandon-Hill List of Nursing Books and Journals*.
